FOR IMMEDIATE RELEASE

GMS CONSULTING SELECTS SWITCH MANAGEMENT FOR WHOLESALE BILLING SOLUTION
WebCDR™ to Provide ASP Billing Solution for Facilities-Based Provider

OAKLAND, CA – December 17, 2001 -- Switch Management Corporation (www.switchmanagement.com), a leading OSS software provider to the telecommunications industry, today announced that GMS Consulting ("GMS"), a facilities-based wholesale provider of international and domestic long distance, has selected the award-winning WebCDR™ for its carrier billing solution.

"WebCDR is an excellent program," says Gina Scialla, president of GMS. "We chose WebCDR to handle our billing, NOC management, and critical reporting primarily because of its ease of use. All due diligence conducted on Switch Management/WebCDR came back with only the highest recommendations to move forward."

GMS is a New York-based wholesale provider of international and domestic long distance. The company, now running between 5 and 10 million minutes per month on its Nortel DMS 250, plans to expand its network into Los Angeles and Miami in the near future.

"We are pleased to have been chosen by GMS as its billing partner," says Adam Nathanson, president of Switch Management. "In today's highly competitive telecom climate, carriers are seeking new ways to increase productivity and reduce overhead. The outsourcing of carrier billing is one of the most effective ways of accomplishing this task, as it can dramatically improve a company's operational efficiency and reduce its operational expenditures."

For more information on WebCDR contact Mark Schofield, vp of sales, at (510) 452-9200 or marks@switchmanagement.com.

About Switch Management Corporation

Switch Management Corporation supplies OSS software to international circuit-switched and VoIP carriers. Its award-winning WebCDR carrier billing ASP allows carriers to fully outsource their billing operations, and realize significant cost savings over traditional in-house billing. Switch Management also publishes Switch Watchdog, a real-time switch monitor and QoS alarm management program designed to replace 24/7 operations staff in small to mid-sized carriers. For more information, call (510) 452-9200, or visit www.switchmanagement.com.
